

## **WEEKLY UPDATE**

**July 31, 2020**

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. Since the onset of this virus, we have had 73 residents and 30 staff members test positive for COVID-19. The majority of our residents that tested positive remain asymptomatic. We are continuing to monitor them for at least another week before we can deem 60 of our residents as officially “recovered”! We have not had a confirmed positive case since our last mass testing earlier this month. As of right now, we do not have any confirmed plans to perform another mass testing, but are continuing to monitor and follow the guidance from the Harris County Public Health Department along with Texas Health and Human Services.

As always, we are working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at 281-347-8200.

Sincerely,

*Kelly Linker*
